

Flexible and precise. The laser measuring system Micro Single NT is the modular version of the LaserControl NT series. The separation of transmitter and receiver allows for a flexible integration into a wide variety of machine types. They are, for instance, used if the installation of support systems is impossible due to the design of the machine tool.

NT Technology

Tool Breakage Detection

Tool Length Measurement

Tool Radius Measurement

Single Cutting Edge Monitoring

Axes Compensation

*Micro Single NT – the modular system*

*Indispensable – the BLUM pneumatic unit*

100 % reliable due to BLUM Protection System

Reliable solutions for every machining operation
